[Intro]

[Verse 1: Rockie Fresh]

It's like you could have it all  
And niggas wouldn't get you  
They've seen what you've become  
With no idea of what you've been through  
A lot of people fake  
And it really becomes an issue  
When you gone they sayin' "Fuck you"  
When you on they fuckin' with you  
Man, I just don't understand  
But, I do me, I can't do it any bigger  
Gettin' pampered by these women  
While I'm shittin' on these niggas  
This is just what I would figure  
This is just what I'd expect  
Anytime you gettin' money  
Then you bound to get respect  
But, you gon' find a problem  
When you find success  
The one's that used to hate you  
Feel like they know you the best  
Man, I wish I had known that it would come with all this  
stress  
Would've smoked a little more  
Maybe cared a little less  
But, I'm already in it  
I plan to be here long  
These niggas say they got me  
But, I know they'll do me wrong  
They wanna knock me off to see me die  
They always try, but I will never fall

[Chorus:]

And they don't understand why  
See, I smoke weed just to ease my mind  
But, they don't understand why  
And I live good cause I'm on my grind  
But, they don't understand why  
I don't love these hoes, so if they don't go

Then, girl you gotta say bye  
And at the end I hope they see  
That I'm a be me when  
They don't understand why

[Verse 2: Tayyib Ali]

Uh, tryna make it to the top  
But, they don't understand  
Never fuck with me, but now you tryna be my man  
Shake my hand, wanna know if shit cool now  
I wonder why  
Probably cause I'm that dude now  
They placin' bets, and I ain't made it yet  
Hilarious  
We on our rap shit  
While these hoes tryna marry us  
Fans flash cameras  
They see me and their hands is up  
From Philly to Atlanta  
Runnin' all over the atlas, bruh  
And I just do my own thing  
Life is too special  
Ridin' in my own lane  
Goin' 80 in that Jetta  
On the road to the bright lights  
Shinnin' like a night light  
The world gonna be mine  
And you can take it if I let you  
That won't happen  
Me and Rockie 'bout to be on  
Grindin' in patience  
And if you don't understand what I'm sayin'  
Man, we party hard, and stay fly  
Workin' for this great life  
A young nigga that stay high
