sara doesn't care about what you think is right
cuz sara know's much better what is lame and what is
tight
sara doesn't wear alot of clothes the way they come,
she'll go and
tear them up and turn them into something awesome

Chorus 3x:

sara don't compare - to all the other fools
because she's kicking asses left and right like noone
else is cool and if she's
standing there or on a chair or brushing out her pretty
hair
the people always stop and stare whenever they see
sa-sa-sara
sara is gonna go far
sara's already a star
sara's gonna rock it, she's got power like the socket
and she's awesome just the way she are

sara is gonna go far
sara's already a star
sara's gonna rock it, she's got power like the socket
and sara's gonna own it while the others try to clone it
sara's gonna bust it while the others just discuss it
