A purple sky
You ain't well me why
Remember the times when our worlds entwined

A purple sky
Why you're not satisfied
Gave you all I had, you're still getting sad

I got you babe in my heart

What can I do for you
To make you feel better
What can I do

Makes me want to know
Take me by the hand
I've found with you

(X2)

A purple sky
Times are happy or sad
We're stuck together, we're bound forever

A purple sky
Now are you satisfied
The truth is confined, behind these grey

I got you babe in my heart

What can I do for you
To make you feel better
What can I do

Makes me want to know
Take me by the hand
I've found with you

(X4)
