"On My Mind"

Oh I know, know how it's
bad, bad to look back
It makes things so much harder than they are.

Keep, keep to myself
lean on someone else
it makes things so much harder than they are.

She still
she still
is on my mind.

Now I search, search for a girl
learn about her world
and now I see what I should've seen
when I'm with her

Don't know how it's
to be with someone else
and now I see, what I should've seen
when I'm with her

She still
she still
is on my mind.

Can I be with someone else?

She still
she still
is on my mind.
