Woah, Yeah
Stop, hiding out in the shadows
Scared to show the world you exist
Don't, lock yourself in the darkness
The world is so much brighter than this
Ya if you never take the shock
You never gonna win
So turn it all around and

Break down the walls Woah
Come on and give it everything you get
Take a chance, make a stand and
Break, break, break down walls Woah
Break down the walls Woah

Break down the walls Woah
Come on and take a chance make a stand and
Break, break, break down the walls
Break down the walls
