Whoa-o-oo, yeah, stop hiding out in the shadows,
scared to show
The worked you exist, don't lock yourself in the
darkness, the
World is so much brighter than this, yeah, if you never
take a shock

You're never gonna win, so turn it all around, and break
down
These walls, who-o-oo, come on and give it everything
you can,
Take a chance, make a stand, and break, break, break
down the

Walls, who-o-oo, break down the walls, who-o-oo, break
down the
Walls, who-o-oo, come on and take a chance, make a
stand, and
Break, break, break down the walls, break down the
wall
