When the crowd wants more  
I bring on the thunder  
'Cause you got my back  
And I'm not going under

You're my point  
You're my guard  
You're the perfect chord  
And I see our names together on every billboard

We're headed for the top  
We got 'em on lock  
We'll make 'em say "Hey!"  
'Cause there's no stopping us  
When we hit the same but different  
We're never gonna quit  
And we'll keep rocking!

There's no way I can make it without you  
Do it without you  
Be here without you  
It's no fun when you're doing it solo  
With you it's like whoa  
Yeah and I know  
I, own this dream  
Cause I've got you with me  
There's no way I can make it without you  
Do it without you  
Be here without you

You got the skills  
And I'm bringing the fire,  
You're the fuel to my rocket  
And it's taking us higer

Yeah we got my flow  
And we're blowin' it UP  
All our fans are gonna scream!  
'Cause they can't get enough

We're headed for the top  
We got 'em on lock

We'll make 'em say "Hey!"  
'Cause there's no stopping us  
When we hit the same but different  
Were never gonna quit  
And we'll keep rockin', oh!

There's no way I can make it without you  
Do it without you  
Be here without you  
It's no fun when you're doing it solo  
With you it's like whoa  
Yeah and I know  
I, own this dream  
'Cause I've got you with me  
There's no way I can make it without you  
Do it without you  
Be here without you

(Yeah! Yeah! Yeah!)  
I keep on rockin' with you  
(Oh! Oh! Oh!)  
And there's no stoppin us  
(Yeah! Yeah! Yeah!)  
I keep on rockin' with you  
Ke-keep on rockin'  
I, will keep on rockin!

There's no way I can make it without you  
Do it without you  
Be here without you  
It's no fun when you're doing it solo  
With you it's like whoa  
Yeah and I know  
I, own this dream  
'Cause I've got you with me  
There's no way I can make it without you  
Do it without you  
Be here without you!

Waaoh  
Be here without you  
Waaohoh  
Be here without you - out you - out you  
Be here without you - out you - out you!
