

Ross Lynch "Double Take"

Visit "[Double Take](#)" on MotoLyrics.com

Flip a switch
Turn up the lightning
Get it right
Show 'em how it's done

Free it up
No matter how you dress that song
Girl you know you got a number one
Go with it

You got 'em where you want 'em
Drop the beat
They need to hear your sound
Play it up

It's coming down to you right now
They wanna know know know
Your name name name
They want the girl girl girl

With game game game
And when they look look look
Your way way way
Your gonna make (make) make (make)
Make 'em do a double take

They wanna know know know
Your name name name
They want the girl girl girl

With game game game
And when they look look look
Your way way way
Your gonna make (make) make (make)
Make 'em do a double take
What up?
