Got a home in the hills of old Virginia I love still  
And it stands near the lonesome pines  
And I long to go back to the vine covered shack  
Where I left that old mother of mine

I can still see her there in that old rocking chair  
In my home among the hills  
And I seem to hear her say why did you go away  
From your home among the hills

The pine trees stand alone near my old Virginia home  
And that silver hared mother of mine  
I can see her smiling face in that old familiar place  
In my home among the hills

I'm leaving here today I'm going back to stay  
In my home among the hills  
How happy we will be near the lonesome pine trees  
In my home among the hills
