Moonlight by Run On The Sun

Verse:

A moment in time, floating in space
the steps that led to this I cannot retrace
We're dancing on moonlight tonight

I look at you looking at me with your eyes
you strip me of what I'm hiding, my disguise
we're dancing on moonlight tonight

Chorus:

And it seems to be
that you and me
Have something they cannot see, when it's not bright
We're dancing on moonlight tonight

Verse:

Forget diomond rings, we'll fly paper planes
Your skin against mine, what else keeps me sane?
Dancing on moonlight tonight

One night well spent, turn to tomorrows dawn
The sun rise appears, as quick as it is gone
Dancing on moonlight tonight

Chorus:

And it seems to be
that you and me
Have something they cannot see, when it's not bright
We're dancing on moonlight tonight

Bridge:

If all I've said is true
and I'd never lie to you
A perfect moon has always been a sign
So won't you be mine
