Verse.

Girl, don't use the word love
When I know what your hiding
(I know what you're hiding)

You said that you regret it,
how could I be so blinded
(how could I be blinded?)

Pre Hook.

We told each other we'd always be together
We trusted the words we shared, with one another
Believed everything you once said to me
But now your words don't mean a thing to me

Hook.

When somebody you know, like somebody you love
goes against all that you had, showing no signs of
remorse

Run away as fast as you can,
cause they will catch up with you again,
again, run as fast as you can

Verse 2.

You regret me finding out,
Hurt so many people, lying
(why would you put us all through the pain?)

Remember that time I said,
please don't go away
(or you might not ever see me again)

Pre Hook.

We told each other we'd always be together
We trusted the words we shared, with one another
Believed everything you once said to me
But now your words don't mean a thing to me

Hook.

When somebody you know, like somebody you love
goes against all that you had, showing no signs of

remorse

Run away as fast as you can,
cause they will catch up with you again,
again, run as fast as you can

Bridge.

Girl tell me why do I deserve this?
Im running running, running away from you
Im running running, yeah, that's what i'll do
Im running running, running away from you, oh

Hook.

When somebody you know, like somebody you love
goes against all that you had, showing no signs of
remorse

Run away as fast as you can,
cause they will catch up with you again,
again, run as fast as you can

When somebody you know, like somebody you love
goes against all that you had, showing no signs of
remorse

Run away as fast as you can,
cause they will catch up with you again,
again, run as fast as you can
