Where ya been?
I've been waiting for you to come home
Why aren't you wearing my favorite cologne?
Can't stand the thought of being alone, without you...
Get in bed
Don't even think of keeping your shirt on
We are gonna take it to another level
You and I, about to go buckwild

Come over here, I'm gonna whisper something in your ear
Tonight it's just you and I no one else is here
You and I, all tonight.
Come over here, I'm gonna whisper something in your ear
Tonight it's just you and I no one else is here
You and I, all tonight.

So obscene, you're just like a perfect fantasy
The both of us could make a pretty memory
Over here I'll show you divine ecstasy
We'll make love
I love your charm
I know that you don't mean me any harm
Before the storm comes, there's a certain calm
We can get it on, yeah, we can get it on yeah
We can get it on

Come over here, I'm gonna whisper something in your ear
Tonight it's just you and I no one else is here
You and I, all tonight.
Come over here, I'm gonna whisper something in your ear
Tonight it's just you and I no one else is here
You and I, all tonight.

Yeah, he is so cute, keeps my heart a-fluttering
Can't concentrate 'cause his diamond chain is glimmering
Sexy in his tank top, he could make my heart
All you other dumb girls, you could just stop

Cause he's mine, I'm takin him
I'm a little crazy, but I'll break him in
He's so fine, I'm takin' him
I'm tryin to let him in, ain't no way I'm faking this (yeah,
get it)

Come over here, I'm gonna whisper something in your
ear
Tonight it's just you and I no one else is here
You and I, all tonight.
Come over here, I'm gonna whisper something in your
ear
Tonight it's just you and I no one else is here
You and I, all tonight.
Come over here, I'm gonna whisper something in your
ear
Tonight it's just you and I no one else is here
You and I, all tonight.
Come over here, I'm gonna whisper something in your
ear
Tonight it's just you and I no one else is here
You and I, all tonight.
