(spoken)

I - I need to get out...

I've been so worked up

something crazy is going to happen tonight

and if I don't get out - well

(sung)

I'm gonna work up a sweat tonight

On the dance floor I'm gonna take flight

I wont control myself tonight

I'm out of control, control, control

take off my clothes, my clothes, my clothes

closing my eyes and dancing, for life

I need out need to get away

from the truth and the pain

that you hold on me

I slipped out so suddenly

you didn't even know,

but it was killing me

I need to stay true to myself

you're bad for my being

and you're bad for my health

I thought what we had was a perfect fairy-tale

but I guess not, I lied to myself

isn't it funny how shit just works out

like the lies and the trash that came from your mouth?

I'm gonna work up a sweat tonight

On the dance floor I'm gonna take flight

I wont control myself tonight

I'm out of control, control, control

take off my clothes, my clothes, my clothes

closing my eyes and dancing, for life

I'm done with this, I thought that you were mine

you frustrated me, one too many times

I'm done with your truth and I'm done with your lies

you wont ever see these tears in my eyes

get out of my house, get out of my space

why don't you go to the other girls place

by looking at you I can tell that you're upset  
but all you ever told me was the same old shit  
I'm not gonna let you come back to this  
already a mistake to let you in

I'm gonna work up a sweat tonight  
On the dance floor I'm gonna take flight  
I wont control myself tonight  
I'm out of control, control, control  
take off my clothes, my clothes, my clothes  
closing my eyes and dancing, for life

Only in time, the pain will subside  
I guess I'll dance until I die  
in another life, i'd feel alright  
I'm gonna work up a new beginning in this night

(spoken)  
I'm dancing on the ground, there's nobody around..

I'm gonna work up a sweat tonight (work up, work up)  
On the dance floor i'm gonna take flight  
I wont control myself (myself) tonight  
I'm out of control, control, control (I'm out of control)  
take off my clothes, my clothes, my clothes (Take off  
my clothes)  
closing my eyes and dancing, for life (for life)
