I never meant to make you feel like i didn't love you
Sometimes I think I misunderstand
All I ever wanted was you to understand
That I am only human
You got to forgive me girl cause I am just no good
When it comes to love
My heart get closed too open
That is the point I am scared of
This time I am patiently waiting
Hopeless devoted for you
Cause baby I don't wanna fight it
Only for me to have it only explanation
Cause I wanna free fall
I wanna free fall just for your love
Fall free fall free
I know you probably don't know how much you mean to
me
But I am here girl promise I won't let you down
I wanna free fall

In the morning when I wake up
There is nothing else I am lacking but your presence
right next to me
Cause you give me everything I need baby
Is like I am on a roller coaster
Spinning thousand times everything you are doing girl I
like it
Picturing you wifie that is on my mind you and me a
beautiful life
Now I found my heart I love you girl
Giving you the world never question .. my devotion is
from my heart

Chorus

This time I am patiently waiting
Hopeless devoted for you
Cause baby I don't wanna fight it
Only for me to have it only explanation
Cause I wanna free fall
I wanna free fall just for your love
Fall free fall free

I know you probably don't know how much you mean to
me
But I am here girl promise I won't let you down
I wanna free fall

There is no one about you my love my love
Girl .. always truesomeone but you matter matter
I wanna free fall
I wanna free fall just for your love
Fall free fall free
