You're not who I thought you were,
and I'm not who you swear I am;
everything became a blur
once I read it back again..

Foreign words fell off the screen,
but those that were left behind,
told me everything I need
to finally make my mind!

So, am I confused?
Who are you?
I just can't believe it..
No, it can't be true!

And I know you don't mean it
but you swear you do..
telling me 'yes, you, yes..'
time went through.. (bis)

I didn't see it coming!
Didn't see it coming!!
Said you had my back,
but now you really got me wondering..

Why I didn't see it coming?
I didn't see it coming!
Said you got my back but now,
I now you were just fringing..

Went down in communication,
somehow you misunderstood..
I tried my best, so, please be patient,
listen hard and listen good..

Every single word I say,
I can see it on your face:
Your mind is already made,
don't you let me leave my cage!

So, am I confused?
Honey, who are you?

I just can't believe it..
No, it can't be true!

And I know you don't mean it
but you swear you do..
telling me 'yes, you, yes..
time went through.. (bis)

I didn't see it coming!
Didn't see it coming!!
Said you had my back,
but now you really got me wondering..

Why I didn't see it coming?
I didn't see it coming!
Said you got my back but now,
I now you were just fringing..

Hold on you just wait a second,
before I let you go..
All these things you blamed on me
why is there no proof to show?

-I know! I know!-

Jeesh, the answer is quite simple:
when it's pushed, it comes out to show..
It seems like you were misinformed,
so you should shut the froooont..!!

I didn't see it coming!
Didn't see it coming!!
Said you had my back,
but now you really got me wondering..

Why I didn't see it coming?
I didn't see it coming!
Said you got my back but now,
I now you were just fringing..
