[Spanx]

Take a look at me

They say I'm the cause of violence and not fit for society

but society wanna get at me put a bullet through my chest and put me on disability

FUCK THAT! Ima get my artillery and march to the land that is so called free

and the home of the brave I'm just so amazed how they have you controlled like a rat in a maze,

SHIT! and I'm so overwhelmed,

how these mutha fuckers lie and they do it so well.

When they talk, just look in their eyes,

you can tell that they are reptilians in disguise

and they wanna see you die,

they got you scared cuz they say they see all with the all seeing eye

If that's the case, middle finger in the air

Fuck the cops, help the cause and hope they run scared.

They coming after us cause we know too much, heavy on the streets and we down to bust

SOUL SHADOWS!

In the middle of the night

SOUL SHADOWS!

Disappear from your sight (hook x2)

[Skandalouz Riot]

They coming after me, no I think their just confused

Blaming for me for riots and violence on the news

That my rhymes are sparking questions, people want the truth

Deceivngly they lie and blame the ghetto youth

Like we killing by the millions, bombing little kids

Money be the factor for carnage that exist

My gang, your gang, this country be gang

What's the fucking difference, A paper with your name?

When I declare war on the streets, it's a crime

when you declare war over seas, it's a sign

a sign of peace to come, a sign for hope for all

I sign of peace treaty and plack it on the wall
So they label me a terrorist, I terrorize the streets
by trying to stop the ignorance, trying to bring some
peace
BUT SKANDALOUZ IS EVIL, SKANDALOUZ IS WRONG!
heavy on the streets mother fuckaz now itâ€™s on

[hook x2]

[Zoot Zoot Classic]

Tip toe through the night, attack while you sleeping
Breaking down doors, donâ€™t need a reason
Up on the roof it ainâ€™t Santa clause,
itâ€™s the FBI agents and this the martial law
Leave no traces or no witness,
if you claiming gangsta then bang the system
Cause Iâ€™m standing tall and I wonâ€™t look back
ready for war, pounding cogniac, So make it clap
No bitch, make it burn
Molotov cocktail, thatâ€™s how they gonna learn
Cuz the only way that they gonna recognize,
if we stand up and we fight till we DIE DIE DIE!
and they keep asking why, cameras everywhere, even
up in the sky
Satellites begin to televise, new world order, so
shadows on the rise

(hook x 2)

[Skandalouz Riot]

They coming after us cuz we know too much,
busting shots at the cops, donâ€™t give a fuck about
us
Iâ€™m awaiting their arrival, DOA on sight
Thugging on these cowards, we running the night
Excersing all my weapons,
homicidal state, kill in a second
We live and die here, this be my kingdom
Bullets we feed em, were screaming freedom
Till they kill me or they murder me Iâ€™m here,
Nightmare to the government injecting that fear
And they hating my devotion to empowerment,
devouring environment, forecast bullets showering
So Iâ€™m shooting out straight up to the block
Ese on a wild one, bound to get stopped
Could it be my style or could it be my clothes,
They say itâ€™s how I speak and the homies that I
chose.
