I wanted to feel special
someone to take their time to know me
fall in love with me

I want you to feel special
to know I'm happy that I found you
I love you

This love's got me so high
It's a long way to fall
but I don't mind

Don't mind at all

If i could fly
I'd write your name in white
across the clear blue sky
to show you

This love's got me so high
It's a long way to fall
but I don't mind
Don't mind at all
