

## San Cisco "Spangled Streets"

Visit "[Spangled Streets](#)" on [MotoLyrics.com](https://MotoLyrics.com)

These spangled streets walk busy feet in a town that's  
always hiding in the water who is fast asleep, is numb  
to all who's dying,  
and the people who know what's going on. Hear the  
people that are left down in the dump all the day.

Victims of the system lay blinded in our name, locked  
behind the doors where their faces, they remain.  
Hear the people goin' on, hear the people that are left  
down in the dump all the day.

Stories up to here leave them blinded and in fear  
Ohhh, never do they find their way home  
Cause they're the people that know what's going on.  
They're the people that are left down in the dump all  
the day  
Cause they're the people that know what's going on  
They're the people that are left down in the dump all  
the day
