Something's missing in my life, I believe the dreams
come true
Have you lost the faith in me, that I burnt the bridge to
you,
A lonely heart, a lonely cry, is this goodbye?
I don't know why we still can try, cant let you go

CHORUS:

And I cant find the words to say, I don't want you to
step away
We can build our life together -it will last forever,
forever you and I

I'm sorry if i let you down, I cant make it undone
But deep inside my aching heart
There is only place for you

Just give me time its not what I deserve, Ill show why-
why we should try
Don't let us be apart

Cause I cant find the words to say, I don't want you to
step away
We can build our life together -it will last forever,
forever
And I would give my heart to you, and forever to be
true
If you still have a heart for me- lets make it happen,
yeah.

We been there and we crossed the line, do we really
have to end it baby???

Cause I cant find the words to say, I don't want you to
step away
We can build our life together -it will last forever,
forever

And I would give you my heart don't let us be apart
I'm always thinking of you I don't know what to do
anymore...
