Something inside me is coming alive  
and someone inside me has died.  
Feel it so strong inside  
every day of my life.  
It's what keeps me alive.  
It's that mountain I've been meaning to climb.  
Feel it so strong inside every day of my life.

My wings are not broken they were just tied.  
Now I'm willing to fly.  
Feel it so strong inside  
every day of my life.  
It's what keeps me alive.  
It's that mountain I've been meaning to climb.  
Feel it so strong inside every day of my life.

The perfect time has arrived.  
I followed all of the signs.  
Feel it so strong inside every day of my life.

My heart says to try  
and I'm not gonna lie.  
Anymore.

The road is wide open.  
I'm ready to ride.  
Leaves are falling behind.  
Feel it so strong inside  
every day of my life.  
It's what keeps me alive.  
It's that mountain I've been meaning to climb.  
Feel it so strong inside every day of my life.

The perfect time has arrived.  
I followed all of the signs.  
Feel it so strong inside every day of my life.

My heart says to try  
and I'm not gonna lie.  
Anymore.
