

Sara Watkins "Be There"

Visit "[Be There](#)" on MotoLyrics.com

You needed me I was gone
For too long I couldn't be found
And you're tired now

I should be there I know
I should help you bear the load
You're tired of living alone
And I'm sorry

But we can still win this
We're still in the game
Don't leave me hanging
Don't hang up the phone
Please be there when I get old

Have the will to try
And find the strength for one more climb
It's been a hard time

But we can still win this
We're still in the game
Don't leave me hanging
Don't hang up the phone
Please be there when I get old

But we can still win this
We're still in the game
Don't leave me hanging
Don't hang up the phone
Please be there when I get old
