As the months go by, and I watch everyone.
They all seem so happy... am I the only one?
Who doesn't feel so happy all the time,
like everyone else. As I look around they all seem
to have someone who loves them,
why can't my someone find me?! Cause' i don't know
anymore.

(Chorus)
The winter hurts! It seeps into my soul!
It fills me with emptiness,
and I feel so alone! And I don't seem to get how
everyone
still finds happiness! When I'm sitting in the corner!!!!
The winter hurts... the winter hurts, it hurts.

As I like someone, but then they get taken away.
They start dating a barbie,
with plastic on her face. But do they care?
Oh no, the only thing that matters, is if your beautiful...

(Chorus)

The winter hurts.... It hurts
