The letters you have sent me, Have only just arrived  
And now I am reminded of when you were alive  
This weight in my chest falls once more,  
With the parcel that fate had placed at my door,

It reads:

'You've captured my heart, and I miss you so much.  
I wish there was a way, we could only just touch.  
You were in my dream last night, and you told me this;  
That "the past and the future meet in a kiss,  
Where two eternities lock, where we co-exist  
Where hope has been enveloped in a deep dull mist"

Through the glass the world is blank and stopped,  
the bell jar has consumed me,  
the bell jar has dropped.'

Hope are you there? I feel you around me.  
You are in the air that I breathe, and the ocean  
consumes me.  
I have been lost for years, since you have left,  
and I wish I could have followed in your last breath.

I was selfish and I let you leave,  
Without acknowledging, my heart you have weaved,  
I hope that one day you can only forgive,  
Because now, without you, it is hard to live.

Hope are you there? I feel you around me.  
You are in the air that I breathe, and the ocean  
consumes me.  
I have been lost for years, since you have left,  
and I wish I could have followed in your last breath.

The bell jar has dropped.
