You're my latest pitfall
You're my page of missed calls
You're nothing, but nothing's alright!
Showed up on my radar
Drove up in your mate's car
You're nothing, but a great waste of time
I don't need fancy holidays; yeah that's what they all
say
This is crazy yeah you bet your life
And size doesn't matter, not your money I'm after
This is crazy, let's give it a try!

Who you're with?
Who you're with?
Who you're really with?

Chorus:
You're my daily hour of sunshine
Feel you on my skin and everything's alright
You're my favourite waste of my time
Fresh from the start, and everything is all right!
Everything is alright, alright!

You say that I'm good luck
You say that you're made up
But I'm fragile to handle with me
My friends say it won't last
My friends want the last laugh
But you're trouble that I love to wear
And I'll be your secret if you never repeat it
Then baby, we'll be just fine!
I've fallen right through ya
I'm deep underwater
This is crazy, let's give it a try!

Who you're with?
Who you're with?
Who you're really with?

Chorus:
You're my daily hour of sunshine

Feel you on my skin and everything's alright
You're my favourite waste of my time
Fresh from the start, and everything is all right!
Everything is alright, alright!
