Bloody symphony of time is being played
Time is moving towards past
Bloody symphony of time

Harmonies that are being followed by human death
Sense the smell of blood spread over time
And children who their souls are mixed with blood

And fathers as if they have summarized bloodshed of
history within themselves
Human in search of meaning is struggling with twitches
in filth

Harmonies that are being followed by human death

Bloody symphony of time is being played
Time is moving towards past
Bloody symphony of time
Bloody symphony of time
Bloody symphony of time
Bloody
