"Satan's Courageous Soul"

True (right), I have found something in your eyes which
will shake the ruins of centuries
I have found something in the ruins of history which
smashes the centuries
I consider you a part of Satan's courageous soul
I kneel to your shamelessness
Drown with me in the lagoon of cruelty
Slave mankind to your thoughts
Cause human prostrates before a virgin girl's
lewdness
Put the whole hell on fire
Legacy of mankind is the land of base

Where human considers himself free in it
Write history cruelly
I believe in your cruelty
