She calls my name from the endless depths of the sea
constantly prying every wretched thought inside of me
three sheets to the wind, I see no horizon
They preach doctrine deceit, which never fails
enchanting me

You don't come in the name of God
your sicknesses lead to the warpath
singing those songs till the wolves come to feed
you bred the guilty
you reek of all but what you're trying to be
now drag me out to the slaughter
and bleed me out so my brothers can flee

Take off your veil
I gotta look you in the eyes for once
tie me down, it's got me

Oh, just a cub
yelling at the top of my lungs
In a rut, unknowing of the storm to come
If the demons grab me to my grave end
tell them I
gave my all to become a burn-out defined
by what to expect when you step out of line
I refuse cause I know what's become
of the men you left gutless but the wayside
HARLOT! REGRESS!

Is it worth it to know
You (We) all gave birth to a
Soulless, concubine, street rat
Thrown out to sea, they caught the scent of my
careless rot
from underneath

Holding out for a sign but I still sank
Now I'm chained to a gate
Right where the specter lead me
she lead me
we're just vermin overgrown
fucking vermin overgrown

Bayonet, my love whispers secrets that she never kept,
her garden grows
garden overgrown.
collecting the souls of these vermin overgrown
you're not righteous, Just dead in the dirt
