### "Never Be"

Everyone love to be alone, everybody that I know  
Is calm, is calm, is calm, is calm.  
I can't see you in the dark, I always know when your  
Heart,  
It's calm, it's calm, it's calm, it's calm.

Will you ever be, will you ever be?  
Will you ever be, will you ever be?

Well, you know I love your time and everything that was  
Mine,  
Is calm, is calm, is calm, is calm.

Will you ever be, will you ever be?  
Will you ever be, will you ever be?

Will you ever be, will you ever be?  
Will you ever be, will you ever be?
