"All The Words"

Visit ["All The Words"](#) on MotoLyrics.com

All the words I own are made by
You mean more than life to me
Every dream I had is made by
You mean more than life to me

All the words I own are made by
You mean more than life to me
Every dream I had is made by
You mean more than life to me

All the words I own are made by
You mean more than life to me
All the words I own are made by
You mean more than life to me
All the words I own are made by
You mean more than life to me

Tried to call you last night
Tried to text you
I had a few drinks and I missed you
Even if I messed it up believe it or not
You're everything I got

Tried to call you last night
Tried to text you
I had a few drinks and I missed you
Even if I messed it up believe it or not
You're everything I got

Tried to call you last night
Tried to text you
I had a few drinks and I missed you
Even if I messed it up believe it or not
You're everything I got
