I hate birds, songs and serenades  
Church bells ringing in the day  
Gentle whisper in my ear  
All sadness disappear

There was something missing in my life  
Now I know what love is all about

Oh oh oh no no what love is all about  
Oh oh oh no no what love is all about

I hate birds, songs and serenades  
Sun rises and it starts to rain  
Walking down an endless road  
To you and where the rivers float

There was something missing in my life  
Now I know what love is all about

Oh oh oh no no what love is all about  
Oh oh oh no no what love is all about

I hate birds, songs and serenades  
Sun rises and it starts to rain

There was something missing in my life  
Now I know what love is all about

I hate birds, songs and serenades  
Now I know what love is all about  
I hate birds, songs and serenades  
Now I know what love is all about  
I hate birds, songs and serenades

I hate birds, songs and serenades
