You make it easy on me
You make it easy on me
You make it easy on me
You make it easy on me

You make it easy on me
You make it easy on me
You make it easy on me
You make it easy on me

Takes a long long time
Takes a long ...?
To find out where you belong
Where every I was what ever I did
Was looking for someone like you

It was a long long time I felt insecure
But it feels like it was yesterday
I'm glad it's gone what I felt before
I'm sorry until this day

You make it easy on me
You make it easy on me

You make it easy on me
You make it easy on me
You make it easy on me
You make it easy on me

You make it easy on me
You make it easy on me
