Baby, wake up  
Baby, come see  
And now if you lose your way  
Just hold onto me

The flames have all died out  
Our hearts are still beating  
And the rain is gone  
The rain is gone

Just look around

Our time is not up  
And our places in the sun  
So just wipe the ashes from your eyes, girl  
There's so much work to be done

And there's, there's no need to be sure  
Just be sure to keep breathing  
We'll just keep moving on  
We'll keep moving on

Just look around  
Just look around

We're not okay  
But baby, we're all right  
So just make love through the day  
And hold each other tight

Just remember your song  
And don't forget to keep singing  
'Cause our love is a bomb  
Our love is a bomb

Just look around  
(Keep your eyes open, it's alright)  
Just look around  
(Keep your eyes open, it's alright)

Make better years from bitter days  
This is our time, this is our place

Make better years from bitter days  
This is our time, this is our place  
This is our time, believe

Just look around  
Just look around
