

Orson "Northern Girl"

Visit "[Northern Girl](#)" on MotoLyrics.com

Here she comes brighter than the California sun
I say, "Girl, are you alright?"
You know I can't believe the way you shine tonight
A northern treasure, measure for measure
And I don't know whether she was heaven sent
But she pays the rent

Everyone she knows is always telling her
That she could do better but she don't really mind
'Cause we have a good time when we're together
Maybe there is something in the water or blame it on
the weather
But we're doing fine just me and my northern girl

There I go, Mr. Rock and roll living on the dole
Running with the boys, we'll raise some hell tonight
Come on and make some noise
When we're together, I'm under pressure
We're from different worlds, me and my northern girl

Everyone she knows is always telling her
That she could do better but she don't really mind
'Cause we have a good time when we're together
Maybe there is something in the water or blame it on
the weather
But we're doing fine just me and my northern girl

She's my northern girl and we're doing fine
Yeah
