

Orson "OK Song"

Visit "[OK Song](#)" on MotoLyrics.com

Are you tired of counting eggs that will never hatch?
Did you bite off more than you can chew?

Are you sad 'cause the grass is always greener?
Would it look much better in red and blue?

Everything will be okay
Give it just a minute longer
'cause the bright side is on the way
Everything will be okay
Remember when the rain's falling
It's alright you'll go outside and play

Don't you be afraid to meet your maker
'cause I hear that she's just as scared of you

Everything will be okay
Give it just a minute longer
'cause the bright side is on the way
Everything will be okay
Remember when the rain's falling
It's alright you'll go outside and play

Every
Every
Everything
Give it just a minute longer
