You're so ahead of me
Don't see how that could be
Did I just miss something here?
It's the worst I fear, my dear

You're looking, oh, so cute
Did you just buy that suit?
And you just changed your hair
It's so unfair, I'm tryin' not to care

Just remember this
It's just a kiss, nobody has to know
And I won't tell anyone that I know
And I'll be waiting by the phone

All those pictures that you gave me
And all those promises you made me
All mean nothing
Since you decide to grow up on me

Sorry for these impositions
But I don't get your new condition
But I'll follow along
And you can walk me like that dog

And I'll take you where you want to go
And let you play with my radio
But is there nothing more that I can do?
To please you, how 'bout a little clue?

But just you remember this
It's just a kiss, nobody has to know
And I won't tell anyone that I know
That you're just no good alone

All those pictures that you gave me
And all those promises you made me
All mean nothing
Since you decide to grow up on me

Sorry for these impositions
But I don't get your new condition

But I'll follow along
And you can walk me like that dog

Tell me what to do
Tell me what to do

Sorry for these impositions
But I don't get your new condition
But I'll follow along
And you can walk me like that dog
