She said Nine O'clock
She said Nine O'clock
Can I just keep breathing
'til Nine O'clock

Little heart will you please hold together
'Til she's hear standing near again

Then at nine O'clock
We may see a sight
Like the world's first rainbow
Too glow at night

And if we get a kiss just then
We'll see miracles
From nine to ten

She said nine o'clock
She said nine o'clock
Can I just keep on breathing
until nine o'clock

Little heart won't you please hold together
Until she's hear standing so near again

Because at nine o'clock
We may see a sight
Like the world's first rainbow
Too glow at night

And if we get a kiss just then Oh
We'll see miracles
From nine to ten
