Holding the phone
By myself all alone
Call me up, call me up girlfriend
There's no seventh degree
On my caller I.D.
Call me up if you can, girlfriend
'Cause one thing I don't like is when you're away
So I think about you all the time, everyday
Oh well, whatever you want, whatever you say, 36
kilometers is not far away

Well it's never too far
In my little brown car
To see you, to see my girlfriend
And when I have to go
I can't wait to say hello
To your face when I see you again
'Cause one thing I don't like
Is when you're away
So I think about you all the time, everyday
Oh well, whatever you want, whatever you say, 36
kilometers is not far away
