Show me your grace; show me your glory; Show me
your grace; show me your glory; just to be in your
presence is where I want to be.

The things you done for me I, Know that I've often
seen them, Without your thoughts of me and, I think I
rarely see but, Your so heavenly where, Your
spirit intercedes, And our ways are contrary so, My
prayer is that you really show me.

I need to see your power; I need to see your love. You
are the true example of all that I could ever dream of.
When I'm feeling lonely you put me on cloud nine.
You lift me so much higher then you hold me and you
showed me.

Just wanna see you lord.
