"Love More"

Visit "[Love More](#)" on MotoLyrics.com

Chained to the wall of our room
Yeah you chained me like a dog in our room
I thought that's how it was
I thought that we were fine
Then the day was night
You were high, you were high when I was doomed
And dying for with no light, with no light

Tied to my bed
I was younger then
I had nothing to spend but time on you
But it made me love, it made me love, it made me love
more
It made me love, it made me love, it made me love
more

Do what you said the words she said left out
Over unto the sky where I'll soon fly
And she took the time
To believe in, to believe in what she said
She made me love, she made me love, she made me
love more
She made me love, she made me love, she made me
love more,
More, more, more, more, more, more, more, more,
more, more, more
