Well baby don't be shy
I can think of a million reasons why
Through my head run thoughts of you
And darling you know there's nothing I would rather do
Whoa you know (giving my love away to you)
Is hard for me to do whoa oh (giving my love away to
you x2)
Darling I hope you know it's hard for me to do whoa oh
(giving my love away to you)
The things that don't stay the same

Now sit down next to me
There's no place that you ought to be
Too many distractions in a day
I got to figure out just how to say
I hope you know (giving my love away to you)
Is hard for me to do whoa (giving my love away to you
x2)
Well darling I know it's hard for me to do whoa
(giving my love away to you)
The things that don't stay the same whoa
