I've looked on down, now baby it looks nice  
You don't have to tell me more than once or twice

I've kept all the things, you found my walking shoes  
I found out a way to rig it so I can't lose

Now I said darling  
Would you keep on pushing?  
Would you keep on riding?  
All you love is down  
But I can't leave town  
No, I guess I'll spend my days  
Southern dreaming

I fight through this haze, baby  
Fight through the malaise  
I'll live down there til my dying days

I see when I sleep, baby, through my dreams  
That I've read in the pages of books and magazines

Now I said darling  
Would you keep on pushing?  
Would you keep on riding?  
All you love is down  
But I can't leave town  
No, I guess I'll spend my days  
Southern dreaming  
Now I said darling  
Would you keep on pushing?  
Would you keep on riding?  
All you love is down  
But I can't leave town  
No, I guess I'll spend my days  
Southern dreaming
