Intro:

Your love is like
Licking honey between the thorns
Keep going to see
To see where it goes
And baby if you reach
Reach deep in despair
Your life will turn to
Be a nightmare.

That's how I want it to be
Open your eyes and you'll see

Verse 1 (2x):

Beyond the stars over the skies
I can see only your eyes
And in the middle of the night I scream your name
And it echoes only pain.

Pre-Chorus:

But before this endless curse
I had plans for both of us
And embracing love it seems
We've become immortal dreams

Chorus:

That's how I want it to be
Foreverer you and me
Open your eyes and you'll see
Is the faith of destiny

That's how I want it to be
Foreverer you and me
Set on fire by desire
Amplified by angels choir

Verse 2:

History is being written
Like the pages that we turn
And neverending time is bitter
Because of what we didn't wanna learn

Love quake vibrations
Echoing from distant shores
Eock heart union of unisons
Creates an avalanche of chords
Unison of unions like a passion with a crown
Flies sky high and never falls down
Ocean of hate with islands of love
Unique images spotted from above

Chorus:

That's how I want it to be
Foreverer you and me
Open your eyes and you'll see
Is the faith of destiny

That's how I want it to be
Foreverer you and me
Set on fire by desire
Amplified by angels choir

That's how I want it to be
Open your eyes and you'll see

That's how I want it to be
Open your eyes and you'll see

Pre-Chorus:

But before this endless curse
I had plans for both of us
And embracing love it seems
We've become immortal dreams

Chorus:

That's how I want it to be
Foreverer you and me
Open your eyes and you'll see
Is the faith of destiny

That's how I want it to be
Foreverer you and me
Set on fire by desire
Amplified by angels choir
