Hey there Mr Galaxy,  
You're spinning all around me  
Hey there Mr Planet,  
Do you know the plan for humanity?

And I wanna see the way we look from up there  
And I wanna see the world turned upside down  
Restoration, when will you come to us?

Hey there Miss Destitute,  
I don't think we're looking after you  
Hey there little orphan  
Can I sit with you and hear your message for them

And I wanna see the way we look from up there  
And I wanna see the world upside down  
Oh and we're gonna see the way we look from up there  
And we're gonna see the world upside down

...starin back at me...yeah...
