Signs of love overshadowed by dreams  
Baby, don't worry coz you ain't alone  
Only time running days without nights  
Tears pass through

He said, I'm the one who's got to leave  
I said, Nobody's really got to leave coz  
I don't hear enough explanation  
All I need is admiration

Big frustration bro he goes,  
Life is short we gave a shot,  
but didn't work honey coz we had,  
a whole lot going on and on, and on

Signs of love overshadowed by dreams  
Baby, don't worry coz you ain't alone  
Only time running days without nights  
Tears pass through

Every time look at the picture in the frame  
Gaze in fascination so hard  
You still think that is nothing but love  
Rain still falls
