Welcome to my unconsciousness  
Where evil rules the game  
Fireworks of emotions  
Burn me up in flames  
Animal instinct's nature  
Takes me down the void  
Slaved by an insane obsession  
My mind is fading

[Bridge:]  
In my dark world time goes back  
And all the white things turn to black  
Fear makes me blind - there is darkness inside

[Chorus:]  
Beyond the horizon where I can't see  
There Evil's sorcery is awaiting me  
Roaming through labyrinths  
Of my entangling thoughts  
I cannot find a way out  
That would give me a hope  
Facing the growing madness  
I'm losing self-control  
It seems to me that evil  
Lives inside of all
