Everything's right, goes from my hand  
Driving through the city, wanna party again  
Got dreams, wanna see you again

Party like a rock star, rock star X 4

Pockets full of dimes,  
Hanging out freaky while the sexy accent  
Funny, funny, funny dreaming eyes  
Rolling blunts, sitting high, in my neighborhood tonight

Everything's right, goes from my hand  
Driving through the city, wanna party again  
Got dreams, wanna see you again

Party like a rock star, rock star X 4  
get here meet on the way  
Party like a rock star, rock star  
get here meet on the way  
rock star, rock star, a rock star, rock star

yeah, aha! ow, no second guessing hoe  
leaving and lock those  
you feel no and cause me  
you got my face, you

Everything's right, goes from my hand  
Driving through the city, wanna party again  
Got dreams, wanna see you again

Party like a rock star, rock star X 4  
get here meet on the way  
Party like a rock star, rock star  
get here meet on the way  
rock star, rock star, a rock star, rock star
