Verse 1

I awake from a deep sleep, my heart sinks
My dreams are fading rapidly your memory is leaving
me
At the end of the day life fades away and now you face
reality
Need someone there to comfort me

And your there to take me away
And your there to take me home
Yeah

Picking Guitar

Verse2

What if we could erase the past, clear spots in our mind
Then change it back donâ€™t know what else weâ€™d
find
Take this tablet for the symptoms, this one for the pain
Now we think weâ€™ve solved it but the problem still
remains

And your there to take me away
You there to take me home
Yeah

I need to hold you
Iâ€™ve Been Thinking
Yeah
Youâ€™ve been on my mind
