Take a breath, hold you in.  
hearts beat, one beat, unison.  
Baby I'm hooked I'm hooked on you.  
The perfect drug, the perfect dream  
You're my chemical dependency  
baby I'm hooked on you.  
Oh oh oh

I'm hooked on a brand new kind of high,  
I'm letting go for the first time  
yellow, purple, blue and GREEN  
you're every colour deep inside of me,  
I'm hooked on a brand new kind of high.

Pumping blood to the beat  
all this music's a part of me  
baby I'm lost in you  
flashing lights are touching me  
overloading sensory  
baby i'm lost in you  
oh oh oh

I'm hooked on a brand new kind of high,  
I'm letting go for the first time  
yellow, purple, blue and GREEN  
you're every colour deep inside of me,  
I'm hooked on a brand new kind of high.

I'm never coming down.

I'm hooked on a brand new kind of high,  
I'm letting go for the first time  
yellow, purple, blue and GREEN  
you're every colour deep inside of me,  
I'm hooked on a brand new kind of high.
