"Disco Snow"

A black light snow white on a key.
Take a deep breath, she's all over me
like a warm blowing snow that's falling endlessly
no one's asleep.
I keep tripping on the ice. I can't control my feet.

oh I'm spinning, spinning.
Eyes are spinning spinning
Can't stop spinning spinning.

I'm spinning out of control, I can't feel my nose.
It's not getting cold, it's just disco snow.

Slow trance, deep bass, shivering.
Frequencies and heart beat in harmony.
A thousand silhouettes are floating in a dream.
no one's asleep
I keep tripping on the beat. I can't control my feet.

oh I'm spinning, spinning.
Eyes are spinning spinning
Can't stop spinning spinning.

I'm spinning out of control, I can't feel my nose.
It's not getting cold, it's just disco snow.

oh I'm spinning, spinning.
Eyes are spinning spinning
Can't stop spinning spinning.

I'm spinning out of control, I can't feel my nose.
It's not getting cold, it's just disco snow.
