(Ooo, Ha!)

Safety off he's moving with the times
While he's waiting in a super market line
"Follow me" he'd say, "I believe, I believe I know the way"

(Ooooo)

Look deeper, deep into my eyes
Look, I'm in my own little paradise
"Sleeping well" he'd say, "I'm sleeping any trouble away"

He's only sleeping when there's time
Demons resting in his mind, they're strong

(Come in, come into the parade
Come in, come into the parade)
Follow, follow, in the parade
Noise will stop him keeping him awake, he's wrong
(Come in, come into the parade
Come in, come into the parade)

My, my
He's in disguise
He's in disguise
(Find a way!)

(Ooo, Ha!)
She looks nice, she's giving it a rest
He said he loves her when she likes herself less
"I'm safe when I'm awake, it's darker today outside is where I'll stay"

(Oooo, Ooo)

A longer dress, she's hurting this time
She doesn't move until she stays behind
And look backing she'd say, "I wish I didn't join a parade"

She's only into healing pain
Waves will carry out her name
She knows

(Come in, come into the parade
Come in, come into the parade)
On her hands, her hands are cold
Keeping her from things of gold, she wrote
(Come in, come into the parade
Come in, come into the parade)

My, my
She's in disguise
She's in disguise
(Find a way!)

My, my
All in disguise
All in disguise
(find a way, find a way)

Oooo, Oooo
Oooo, Oooo
Oooo, Oooo

(Come in, come into the parade
Come in, come into the parade)
